A Foreword.

In making up this report every effort has been made to make it easy to read and understand and duplication of figures has been avoided as much as possible. It is very gratifying to note that of the 1933 taxes only \$1,285.85 was sold and of the \$881.43 taxes paid by the town on former liens, all but \$287.94 was redeemed by the end of the fiscal year.

The conscientious efforts of our Tax Collector as well as those of the Town Agent are to be commended as are the honest efforts of Canaan's taxpayers which enabled us to end the year in such good financial condition and with a reduction in the town debt of \$2,984.66.

The balance of debt will be wiped out in two years more and should make a reduction of \$5.00 in taxes on each \$1,000 in valuation and with the town growing in popularity each year as a winter playground, as well as a beautiful summer resort, we should all be ready to get back of every community effort and be a booster for Canaan.

SELECTMEN OF CANAAN,

Herbert W. Day, Chairman.

Report of the Town Agent

During the year just ended the town has taken deeds to all pieces of property on which it held tax liens dating from years prior to 1931. Certain other liens were relinquished because of defects that rendered them uncollectable, and one very old tax claim was abated because of circumstances that would have worked an injustice to the present owner of the property. The town's books are thereby cleared of all uncollected taxes on which the redemption period of two years following the date of sale has expired. While seizing tax-delinquent property may appear drastic and regrettable, it is only by adhering strictly to the law regarding tax sales, notifications, deeding, etc., that confusion and embarrassment can be avoided. It has been the policy of the town officers to be liberal and considerate in their dealings with property owners who have been unfortunate enough to lose their holdings in this way, and the present Agent feels that every possible benefit should be shown everyone who can see a possibility of redeeming his real estate. But it must be remembered that the old-time practice of selling property for taxes year after year—one case has been cited where a farm and buildings were thus sold for 27 consecutive years—would result eventually in the removal from the sources of tax revenues every parcel of real estate in town. Even the acquisition of property by tax deed is not sufficient to satisfy the town's claims. Authority must be given the town to dispose of these holdings—to get them back into income-producing hands and keep the town out of the capacity of landlord so far as possible.

The figures covering collections and unpaid taxes for the years 1931, 1932 and 1933 appear in the Select-

men's statement of receipts and assets and need not be duplicated here.

EDWARD A. BARNEY, Town Agent.
